SureTDS is a complete software that allows Chartered Accountants, Tax Practitioners, CA Firm, Companies and many small units to relax and easily file the TDS returns at the last hour. SureTDS is capable of virtually generating the e-file with only the few clicks.

The solution comes integrated with bulk data import functionality to import bulk data within seconds create e-file for submission to Department.

SureTDS provides maximum functionality to its users in terms of operating the software with it easy to use and self explanatory menus and interface screens. The software is fully independent of mouse operations. This helps those who are more comfortable using the keyboard for performing most of the operations.
